

DRUG TESTING SERVICES

Gamma-Dynacare is one of the largest, most innovative and responsive providers of laboratory services and solutions in Canada with over 35 years of experience in the industry. We enjoy a reputation for quality, service and flexibility in meeting our clients' needs.

Drug and alcohol abuse is one of the main causes of productivity loss, increased health care expenses, accidents and more. For this reason, companies have included substance abuse testing in their employee wellness programs.

Gamma-Dynacare, who is accredited by the Substance Abuse & Mental Health Services Administration (SAMHSA), offers such testing for both regulated (Department of Transportation – DOT) and non-regulated industries. We are certified by the U.S. Department of Health and Human Services (HHS) to perform urine drug testing for federal agencies.

As our client, we will provide you with the following:

- ▶ **Centralized National Customer Service Centre:** Our skilled bilingual Customer Service support staff can help you with all your inquiries through one toll-free number (1-877-679-6935).
- ▶ **National Collection Network:** Gamma-Dynacare has an extensive national network of specimen collection centres and access to third-party collection facilities across Canada.
- ▶ **Expanded test menu:** Our commitment to research and technology enables us to provide you with numerous testing options.
- ▶ **Consulting services:** Technical and professional consultants are available to provide their expertise.
- ▶ **Logistics & transportation expertise:** Our 35 years of logistics expertise has led to our seamless procedures for transporting specimens. To ensure timely results, we can arrange for direct specimen pick-up across Canada through our company-owned courier network, as well as our third party commercial carrier.
- ▶ **Leading-edge IT connectivity solutions:** We offer innovative IT solutions to meet your specific needs. Our multiple connectivity options (such as web-based or auto fax) provide customers with secure access to data.
- ▶ **Point of care test (POCT) devices:** If you require instant results, we can supply you with POCT devices for drug screening which you can administer in your own facility.
